

RACKING UP SOLUTIONS

### **Magic Rack® Organizer Warnings and Disclaimers**

When mounting the Magic Rack® Organizer, use only the anchors and screws provided. Mount only into stable and secure drywall or studs.

Install vinyl caps on all offensive hook ends.

Do not install the Magic Rack® Organizer at heights where hooks can cause personal injury to adults or children.

A single crossbar will hold up to 70 pounds **only** when the hang point of the item being hung is straight downward from the crossbar.

The amount of weight an individual hook will hold may vary based on the shape of the item and how it is held. Thus, it is the responsibility of the user to exercise caution and good judgement related to safety when hanging items from the Magic Rack® Organizer hooks or when using baskets.

When possible, the total weight being hung on a single crossbar should be distributed across the entire length of the crossbar with multiple hooks for maximum safety.

It is the responsibility of the user to insure that all hooks are properly installed in the crossbar according to the hook installation procedures before hanging any item.

Magic Rack® / Production Plus Corp is not responsible for any personal property damages resulting from the installation of the Magic Rack® Organizer.
